Test Summary Report (TSR)

Test Summary Report (TSR)

Report Identifier Report ID: TSR_DemoBank_R2.1_20250910_191601 Linked Test Plan: TP-789 Report Date: 2025-09-10 19:16:01 Report Version: 1.0

Report Identifier

Introduction Project Information Project: DemoBank Release: R2.1 Test Scope: Login, Transfers, Profile Test Objectives: Regression+Smoke Executive Summary This report summarizes the test execution results for DemoBank release R2.1. The testing was conducted covering Login, Transfers, Profile with the primary objective of Regression+Smoke.

Introduction

Project Information

Executive Summary

This report summarizes the test execution results for DemoBank release R2.1. The testing was conducted covering Login, Transfers, Profile with the primary objective of Regression+Smoke.

Test Summary

8 Total Tests 8 Executed (100.0%) 4 Passed (50.0%) 4 Failed (50.0%) 0 Blocked (0.0%) 0 Skipped (0.0%)

Test Execution Timeline

Test Execution Timeline

Variances/Deviations

No significant variances or deviations from the planned test execution.

No significant variances or deviations from the planned test execution.

Defect Summary

Key Bugs

Defect Density per Module

Key Findings

Stable Areas No specific stable areas identified in this test cycle.

Stable Areas

No specific stable areas identified in this test cycle.

Risky Areas No significant risky areas identified in this test cycle.

Risky Areas

No significant risky areas identified in this test cycle.

Exit Criteria

Criteria Met ■ All planned test cases executed ■ Pass rate meets minimum threshold ■ Critical defects resolved Criteria Not Met All exit criteria have been met.

Criteria Met

■ All planned test cases executed ■ Pass rate meets minimum threshold ■ Critical defects resolved

■ All planned test cases executed

■ Pass rate meets minimum threshold

■ Critical defects resolved

Criteria Not Met

All exit criteria have been met.

Lessons Learned

What Went Well Test execution completed within planned timeframe No major environment issues encountered Good collaboration between teams

What Went Well

Areas for Improvement Improve test data quality Enhance test coverage

Areas for Improvement

Recommendations for Next Cycle Review and update test cases based on current findings Enhance test data management processes Implement better risk assessment methodologies

Recommendations for Next Cycle
